

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

The specimens of *Littorina litorea* and of *Purpura lapillus* presented were also collected at Bass Rocks where they occurred in great abundance, and appeared to be the commonest gasteropods of the locality. The former is described in the report on the Invertebrata of Massachusetts, of Gould and Binney, but the only locality given for it is Halifax, while it is not noticed as occurring at Vineyard Sound in the report of the U. S. Commission of Fish, Pt. i, 1873.

SEPTEMBER 12, 1882.

The President, Dr. LEIDY, in the chair.

Twenty-seven persons present.

The death of Wm. H. Allen, a member, August 29, 1882, was announced.

The following were ordered to be published :—
